

C.N.R. TO BUILD THREE BRANCHES

To Calgary, to Ft. Assiniboine and
From Eastern Boundary of the
Province to Capital.

D. D. Mann, vice-president of the C. N. R. and M. H. McLeod, general manager, interviewed the members of the provincial cabinet at the Parliament buildings yesterday. The C. N. R. officials are extremely satisfied with the proposals which the Rathbourn government have made for the extension of branch lines and had the interview yesterday to further consult with the government as to what branch lines are deemed to be most urgent.

The result of the interview is not definitely known, but it is understood that at least three branch lines have been decided upon. As early as a date possible, a line will be projected from Edmonton northwest to Fort Assiniboine on the Athabasca river, and eventually to Lesser Slave Lake and Peace River country. This will tap the great north coast and the impossibility of getting the produce of the settlers to market. This year the production of the settled area in the north was far in excess of what could be marketed and consequently the country has been suffering.

The two other branches. The government have looked favorably on the claims of the people for the great tract of country in the northwest of the province and north of the Saskatchewan river. It is understood that the C. N. R. will build a line from a point just north of the Saskatchewan river to the north of the Peace River country. This branch will run from the Peace River country to the north of the Peace River country.

The third line will run from the Peace River country to the north of the Peace River country. This branch will run from the Peace River country to the north of the Peace River country.

These lines show that the C. N. R. officials look upon the extension of the great central line in the development of the province as all three of the lines have a tendency to branch out. Other lines will undoubtedly be built. The C. N. R. will know what direction they will take.

The government is giving a great deal of attention to the extension of the railway. It is a fact that the province has a whole for railway facilities. The extension of the railway is a fact that the province has a whole for railway facilities. The extension of the railway is a fact that the province has a whole for railway facilities.

CHAMBERLAIN STILL ALIVE.

Founder of Tariff Reform Movement
May Return to Politics.

London, Jan. 22.—Joseph Chamberlain clings to the belief that he will remain politics and rescue the leadership of the movement for tariff reform. Although his friends long ago gave up the hope of seeing him in the arena again, Mr. Chamberlain has announced to his constituents that he will enter himself for the next West Birmingham at the next general election, but he says he may have to ask to be excused from doing so during the contest. In a letter declaring his definite refusal to resign, he said the next campaign, Mr. Chamberlain says, "I am getting on my feet and recovery is now and I am advised to take no prominent part in public affairs at the present time. My family and friends encourage me to leave the political arena, but I believe that his condition has remained without change for a year."

TWENTY KILLED IN TRAIN WRECK

Second Section of the Chicago Flyer
Crashes Into First in Allegheny
Mountains.

Pittsburg, Jan. 23.—A fearful wreck occurred on the Pennsylvania railroad at Summerville, sixteen miles up the Allegheny mountains, east of Johnstown. Two passenger trains, the second section of the Chicago flyer known as train No. 21, and the first section of the Chicago flyer known as train No. 22, crashed into each other.

At this hour a dispatch from Johnstown reports that at least 20 persons were killed and twice as many injured, while railroad officials claim only three are dead.

The rear car on the first section, which was moving from Johnstown to Nashville, Tenn., and which was supposed to be switched off at Pittsburg for the coal train, was the "Pompey" and it was crushed.

A train of physicians led Johnston for the injured. The first section of the wreck is now being moved. The second section of the wreck is now being moved.

STRATHCONA NEWS

A NEW CITY HALL.
It is altogether probable that in the course of the next few months work will be started upon the erection of a new city hall for Strathcona. At the present time the city is paying large rent for the city offices in the "Old Fellows' Hall," which, besides, is not centrally located, and, of course, should be replaced by a more substantial building. It is proposed to erect a substantial brick building on the city property, just west of the fire hall. This building would be used for city offices, police station, police court, etc. A committee of the city council, composed of Aldermen Sheppard and Dismore, with the mayor, is now engaged in going into the matter of preliminary plans, and they will report to the council in the course of a week or two.

HOCKEY ON TUESDAY.
Next Tuesday evening a championship hockey match will be played in Strathcona, between the Edmonton professionals and the Strathcona professionals. The Edmonton team will be composed of the players who have just returned from their eastern tour, and the holders of the Fitz-Hugh Cup, emblematic of the championship of Western Canada. The Strathcona players will be picked from the following: Percy Lenthum, Ellis, Bert Kent, Alvin Kent, John Ab. Kent and two other dark horses. These men have been practicing hard during the past two or three weeks and think that they will be able to give the champions a hard fight.

SUNDAY EVENING SERMONS.
Beginning on Sunday evening next, Rev. H. E. Gordon, pastor of the Metropolitan Methodist Church, will preach a series of sermons on the young man. The sermons will be as follows: January 23, "The Young Man in Business"; January 30, "The Young Man in Society"; February 6, "The Young Man in Politics"; February 13, "The Young Man in Religion." The singing will be led by a big choir of men, assisted by a four-piece orchestra. These sermons will be of especial interest to young men, all of whom are cordially invited to attend.

HIGH SCHOOL WON.
At the Strathcona High School last night, the Edmonton High School team and the seven from Alberta University met in one of the former games of the Intercollegiate schedule. The University team, who have won, badly beaten on two previous occasions, were in much better form than in their earlier games and gave the High School a hard fight. They were beaten, however, by the score of 2 to 1. At halftime the score stood one all, but in the second half the High School players managed to notch up two more to their opponents' one. There was a fair attendance of friends of the contending players.

LOCALS.
The pulpit of the Baptist Church

will be occupied on Sunday morning by one of the students of Alberta College, Rev. Mr. Brown, presiding in Edmonton. In the evening the pastor will speak on "The Body," being the first of a series of evening sermons on the Body, Mind and Soul.

Wednesday evening a concert will be given by the Strathcona University yesterday, English being the subject on which the students were. The concert has been extended to the students to attend the evening session of the Alberta Trades Union convention on Wednesday, January 27th.

Rev. Sheppard, secretary of the Strathcona branch of the United Farmers of Alberta, is making great headway for the fourth annual seal fair to be held in Walter's Hall, over Douglas, here at Alberta Hall, Thursday and Friday. It is expected that there will be a large display of farm seeds.

City Engineer A. J. McLean, of Strathcona, has estimated that the drainage of Lake, in the southwest end of the city, can be drained with a second best drain for \$1,250, and this with a main drain for \$1,000. The question will be taken up by the city council shortly.

The provincial telephone department is distributing in Strathcona the pattern of the telephone for the new office directory for the province. It is quite an elaborate directory, having been handled by Strathcona for years in the front of the book and in the remainder all the other subdivisions are throughout the province.

AMUSEMENTS

AT THE EMPIRE.

The headline act at the Empire next week is that of Johnnie Johnson, the world's greatest violinist. The violinist played with such high ability that the audience was much interested. In the evening the violinist will play a variety of pieces, including "The Swan Lake" and "The Nutcracker." The violinist will also play a variety of pieces, including "The Swan Lake" and "The Nutcracker."

uses, the center performance is sure to surpass them all. In rehearsal the large chorus of very high voices singing the first work with surprising ease and assurance, while the soloists, chosen unquestionably among the leading vocalists of western Canada, Miss Ethel Webb, Mesdames and The. H. S. Webb, having won many flattering notices abroad, while the Messrs. Webb, contrabass, and W. J. Hendrie, tenor, were both winners of gold medals at the Alberta Musical Festival.

AN AMATEUR PRODUCTION.
"Poor Pilgrimage" a farce, and "The Last Leaf," a well-known drama, were presented at the Separate School Hall last night with considerable success. The entertainment was under the auspices of St. Paul's A.Y.P.A. The audience was large and commendable. All the members of the company were successful in their various characters, but the leading actress, Miss amateur production, very little prompting was required.

Mr. Dallow, as Mark Ashton, the silverminer, was particularly good in the second act of "The Last Leaf." Mr. Dallow had a fairly difficult character, but he handled it with ease. Mr. Mason as Caleb Hanson, and Mr. Swallow as Charlie, his son, were very good. Mr. Ayling, as Dick Heale, and Mr. McLean, as Tom Heale, handled their parts with great success. Upon their every appearance they were greeted with shouts of applause.

Miss E. Mason, as Mark Ashton's wife, gave a finished production. Miss Mason, as Patti Jones, was very good. LESSER SLAVE LAKE

AIR'S ITS GRIEVANCES

The Residents in the North Country Meet Their Member and Tell Him What They Want the Alberta Government to Do For Them.

Bredin Promises to Do His Best For Constabulary.

Perhaps the most enthusiastic meeting ever held at Lesser Slave Lake took place on Monday, Jan. 18, when the election of the district was given an opportunity of meeting W. H. Bredin, member in the Alberta Legislature for the constituency of Lesser Slave Lake, before he left for Edmonton to attend the session of the House of Commons.

George Merin was chairman, and in a short address explained the object of the gathering. He then called on Mr. Bredin, who spoke briefly of a few of the many things that the Alberta government had done in the last three years. He was followed by Daniel F. Bredin, who had to know what action Mr. Bredin had taken concerning the various complaints that had been made by certain land-holders, and which, Mr. F. Bredin said, had been taken into consideration.

For Mr. Bredin, the next speaker, drew the attention of the member to the fact that the people of the district were still under the impression that there was a country here second to none. All that was wanted was a few more settlers. He also asked the member to endeavor to have the government make the area more attractive and make it a place where people could live and work with ease, instead of by the back of their hands.

Mr. E. Gully next took the floor. He complained that the non-resident owners of the Public Works Department last season had not paid for the services of the constabulary, and that they had included. He suggested that the government should pay for the constabulary services during the winter. He claimed that thereby a great deal of money would be saved.

Charles Hertz, in a few well-chosen words, asked the member to bring to the notice of the Dominion Government the crying need of the constabulary office at Lesser Slave Lake. Great inconvenience was being experienced at present all articles consumed in the constabulary office had to be sent to Edmonton, and it was a matter of months before a notice up to Lesser Slave Lake could be received.

The next speaker, Mr. La Du, of Heart River settlement, drew the attention of the member to the fact that the constabulary office at Lesser Slave Lake was not doing its duty. He suggested that the government should pay for the constabulary services during the winter. He claimed that thereby a great deal of money would be saved.

In closing, Mr. Bredin promised to do his best to bring to the attention of the Dominion Government the crying need of the constabulary office at Lesser Slave Lake. He suggested that the government should pay for the constabulary services during the winter. He claimed that thereby a great deal of money would be saved.

SETTLES \$200,000 ON EDNA.

Actor's Bride Becomes the Possessor of Valuable Property.

San Francisco, Jan. 22.—Nat. C. Goodwin has settled for \$200,000 upon Edna Goodwin, his wife, and the deed of settlement was executed last August in England when he was visiting her, was put on record last Saturday.

This deed includes the Lafayette Hotel in San Francisco, the home of his wife at Ocean Park, Cal., and 100 shares of industrial bonds and shares of stock.

The deed provides that these securities shall be delivered to the Trustee of the Fire Insurance Company, to be held for the use of the actress, and that the income shall be equally divided between Goodwin and Edna C. The trustee's receipt shows that the properties were delivered to him seven days after Edna Goodwin became Edna's wife. Goodwin withdrew the deed from the National Trust Company on Nov. 6, and the wedding took place the following day at London.

MAY BE BIG STRIKE OF COAL MINERS IN SOUTH

Unrest and Disaffection Among Miners in Alberta and B. C. May Result in Serious Trouble of Mines.

Unrest and Disaffection Among Miners in Alberta and B. C. May Result in Serious Trouble of Mines. Present Agreement Unsatisfactory.

Calgary, Jan. 22.—There is likely to be a general strike of all the coal miners of British Columbia and southern Alberta, beginning April 1, 1909. This will affect some 5,000 men and may tie up the sources of steam, coal and domestic fuel for the province.

The possible exception of some of the lignite mines. In the mining camps of the coal fields in the Canadian west, the miners are known, they are felt to be very serious, and all possible steps are being taken to discount the effects as far as possible. A shortage of the coal supply in the district would mean the closing down of many of the plants, and would throw at least 10,000 men out of employment.

At Great Falls, Helena, Butte and many of the coal fields in the Canadian west, the miners are known, they are felt to be very serious, and all possible steps are being taken to discount the effects as far as possible. A shortage of the coal supply in the district would mean the closing down of many of the plants, and would throw at least 10,000 men out of employment.
